

ABOUT US

FKVisors was created as a brand of Forbikes Srl, one of the most important companies in the motorcycle accessories business, dedicated to the production of visors for motorcycle helmets and others.

In 2012, Forbikes Srl incorporated the AB S.r.l. company, historic business based in Reggio Emilia and specialized in production and thermoforming of helmet visors and plastic processing.

FKVisors is today one of the leading companies in the visor business, thanks to the experience of mr. Armando Bigliardi, a technician specialized in the production of new visor models and prototypes.

Thanks to his help, FKVisors was able to expand its production to the skiing helmets business as well as winter sports in general, cars/karts, parachuting, bicycles and so on.

FKVisors does not provide or produce any spare visors for existing helmet models on the market. For any enquiry or to receive a free consultation you can contact us and we'll be happy to put our professionalism at your service.

FK VISORS
THE VISORS SPECIALISTS

OUR PRODUCTS

FK Visors are produced respecting the maximum standards of quality and optical purity by specialized artisans.

The visor is one of the most delicate part in the building process of a helmet and that's why we want to make sure our customers can... see clearly.

WHY CHOOSE US?

CRAFTSMANSHIP

The visor is a very important part of the helmet. That's why we put all our effort in making them in the most innovative way without compromising our craftsmanship.

FROM THE DESIGN TO THE PRODUCT

FKVisors takes care of all production phases, from technical design to the mold and then the final product.

PRECISION

We work with the best tools to ensure millimetric precision and a perfect integration with the helmet.
